

Welcome to the Tulsa Modelers' Forum 2022 Contest and Show!

There is something for every modeler with our 2022 theme: **Made in Japan**. If it originated* in Japan or depicts Japanese life, history or culture, it qualifies. Samurai, Russo-Japanese war, WWI and WWII, autos, gundam, sci-fi, manga - get creative!

The registration instructions are on the Contest Entry Form, and if you follow them fully and complete them in advance, the registration process will go much faster for everyone! If you download the PDFs of the forms in advance, you can fill them out online before you print (and it's much easier to read than your handwriting!)

Please feel free to download the **Judging Criteria** we use (see the Contest Page on our site). We use a different judging method than most contests, in that we use a numerical scoring system, so that each entry is judged according to the criteria and the points scale. It takes more effort to judge this way, but we believe it produces a fair outcome. And because we post the scoring results online, you can see how the judges rated you in the three areas of criteria. The same panel of judges score all entries in each category (Aircraft, Auto, etc.) so that the scoring scale remains consistent within each category.

Several days after the contest, you can go to the contest page on our website and review the results and the scores of every entry.

www.TulsaIPMS.com

Schedule for the event:

- **8:00:** Doors open for **vendors** (earlier if we can get set up).
- **9:00:** Doors open to the **public** and for **modeler registration**
- **10:30 – 2:30:** **Raffle**
- **11:00:** Judging begins
- **12 Noon:** Registration **closes**.
- **3:00:** **Award ceremony** (or as close as possible!)

Our goal is to encourage as many modelers to participate as possible, to celebrate your work, and to spend an enjoyable day together among fellow hobbyists. To that end, if you see any room for improvement, please feel free to find anyone in a Tulsa Modelers' Forum shirt and share your idea, or use the feedback form that is part of the Contest Entry Form. You can also contact me directly at **greg.kittinger@gmail.com**, or call or text me at **918-260-8349**

* refers to the subject, not the country in which the model kit was manufactured.
